

Senior Storage & Virtualization Engineer

Job Description

We are looking for a Senior Systems Engineer to design, implement, maintain, and support our customers' data center infrastructure. You will be part of the Server & Storage team that is responsible for designing and implementing scalable, maintainable, highly available data center solutions.

Responsibilities

- Deploying and managing VMware vSphere, Horizon View and other VMware solutions on Dell EMC storage systems and UCS compute platform
- Provide necessary project, system and technical documentation in a timely manner
- Perform maintenance and system upgrades including service updates, patches, and hot fixes
- Provide Level 2/3 support and troubleshooting to resolve issues
- Work within established configuration and change management policies to ensure awareness, approval and success of changes made to customer environments
- Complete technical certifications as needed
- Collaborate with other IT personnel for problem resolution

Desired Skills and Experience

- Extensive administrative experience in VMware virtual infrastructure
- Hands-on experience deploying VMware vSphere, Horizon View, vROPS, etc. in an enterprise environment
- In-depth knowledge of diagnosing and resolving vSphere performance issues
- Experience deploying VMware solutions on Dell EMC storage systems and Cisco UCS compute platform in accordance to best practice methodologies.
- Broad datacenter understanding and experience across disciplines, including
 - Operating systems (Linux, Windows)
 - Microsoft Exchange, Active Directory and SQL
 - Storage systems including SAN (FC and FCoE), NAS (CIFS and NFS)
 - Network switches, routers, load balancers, and firewalls
 - Dell EMC hardware and enterprise storage
 - Cisco UCS Platform
 - Data protection and business continuity
- Experience using cloud services preferred
- Excellent analytical, problem solving, verbal and written communication skills
- Strong presentation skills including the ability to conduct architecture and design meetings with customers
